DEDICATION

To Archangels Gabriel, Michael, Raphael, Uriel and Metatron who have always been the foundation of all my teaching and training as a Light Ascension therapist and teacher.

To Ascended Masters El Morya, Lanto, Paul, Serapis Bey, Hilarion, Lady Nada, Lord Sananda and St. Germain. The inspiration you give us to transcend our humanity is what guides my life.

To the Inner Earth Lemurian Council and civilization for opening our eyes to a whole, new world, and some day we becoming one.

To Gaia, Mother Earth. Forgive our abuse. We are awakening. It is not too late, we shall join you in light.

To the Order of Melchizedek for receiving me into your ordination and We Consciousness ministry.

DEDICATION

To Jeshua, the Christ Consciousness energies. Your light has always guided my life beyond any belief system.

To Mother Mary and Mary Magdalene. Thank you for assisting in balancing the masculine and feminine energies at this most important time.

To The Angel News Network. With my brothers Jeff Fasano and Joel Anastasi there is no limit to what we can bring out into the world. And to you, Omar Prince, our social media publicist who way shows our word in a most powerful way.

Last, but mostly to my husband James Gozon. A true gift of love and light which I choose to accept with gratitude that allows everything.

“Here on planet Earth you are standing at the brink of the same disasters as past Golden Ages becoming an actual reality. That is why it is so important to start shifting your reality to one that is more compassionate, respectful, and loving of self and each other, and all aspects of creation.”

ACKNOWLEDGEMENTS

When this latest book began “falling out of me,” Actor, playwright and social media publicist, Omar Prince, immediately began organizing the bits and pieces and compiling them into what you see now. Without his efforts there would be no book to go out into the world. He has become an indispensable guardian of my work and that of many others. Omar and Dr. David Spangler, the playwright, and composer, are in the process of adapting my book, “*Coming Home To Lemuria: An Ascension Adventure Story*,” into a stage play as this book goes to press.

In addition to dedicating this book to higher realms, I must also again acknowledge the higher realms that love and support us in our journey. I am so blessed to have them directly involved in my multidimensional life.

ACKNOWLEDGEMENTS

Lights on to my fellow cofounders in The Angel News Network, Jeff Fasano and Joel Anastasi, who always create love and support in all the higher realms' truths and teachings we together bring out into the world.

To all my students and teachers in our Modern Day Mystery School who inspire me each day with their courage and commitment to learn new truths about themselves and the world and their willingness to apply them.

To my life partner, James Gozon, who creates an unconditionally loving life and home that makes all things possible.

P R E F A C E

When something is sacred and mystical it cannot always be explained by known, accepted sources or by our five senses. The words in these poems and messages are filled with ancient wisdom and magic to set us free from ourselves and to awaken us to who we are and why we are here and where we are headed in today's shifting world. After reading the book straight through, open the book to any random page and allow all the mystery of synchronicity to appear for you to receive the words and guidance you were supposed to receive in that moment; that's sacred and mystical. Keep the book visible as a loving reference tool...

The words in this book are not associated with any organized religion or spiritual belief other than the one in your heart. Please use your own resonance and discernment and your path to interpret these words the way you wish. If they resonate, apply them. If not, as my master teacher would say, "Throw them out the proverbial window."

With the intent to be authentic and transparent, may I say I do not take full ownership of the teachings. The words did come from my head and hand, but the concepts are not my ultimate creation. They have actually been passed along for millennia. Many are old ancient wisdoms that may, under my hand, seem new again, knowing nothing is ever new. I have been taught and inspired by many master teachers, and it has all integrated through inspiration here. This book is the product of that process. I no longer know what words come through my mind or other higher sources that have existed for eons. My mind and these sources have finally become one. This book is not about me but 'we' consciousness. Share and use these words as you will... they belong to all of us and are intended to raise us to a higher state of being.

Most important of all, it's not about the source of these words but about you enjoying the journey of the sacred and mystical word, allowing these words to inspire you the way they came to and through me. If that takes place, we shall join in oneness and love. I dedicate these words to all the people and higher beings that have inspired these words during this crucial time of change within our world and ourselves.

To know, to dare, to do, to serve, and to be,
 In Love and Light,
 Phillip Elton Collins

PART ONE

SACRED POETRY

I.
TWELVE COSMIC CONCEPTS OF
CONSCIOUSNESS (THREE CS)

Twelve Star Systems 'seeded' planet Earth
Through these systems we gained great girth.
Each star system gave a gift
Which allows us to manifest a swift shift.
This gift is known as three sees (Three Cs):
Cosmic Concepts of Consciousness,
And they are always amongst us.

(i) To resonate and apply
UNIVERSAL LAW,
That heals me consciousness,
Allowing we consciousness to apply.

Creating unity and oneness,
Eliminating the distress of
Separation, confrontation and duality,
So they are no longer a reality.

(2) To LEARN TO LOVE,
Is the sacred mission of Mother Earth,
First love of self,
Allows all the rest.
To stop judging, shaming and blaming,
And apply unconditional love,
For the God in me is the same as thee.

To know what we resist; persists.

Through this Love-er-versity
You will end adversity,
And create the next Golden Age,
All before was just a stage.

(3) To ACCEPT WITH COMPASSION,
Thus forgive self,
And see all others, as brothers.

To balance giving and receiving,
As an essential part
In our discovery and recovery.

(4) To SEE THE MEANING, VALUE AND
PURPOSE,
OF ALL LIFE.
To see all strife as a chosen way
To know your way.
To awaken your soul plan,
That allows us to stand.

(5) To FILL OUR HEARTS WITH GRATITUDE

For all the fortitude and multitude
Everywhere, for everyone,
That has brought and sought
In our choosing with no losing.

(6) To commit to a PERSONAL PROCESS

Of an in-depth examine of self
To know how self relations
Effects all relations and nations.

To be responsible for our responses,
And reactions,
To know the difference,
Without defiance.

(7) To know our BODY TEMPLE

Is not simple,
Housing our emotional, mental and physical bodies.
To have gratitude for the platitudes
Of these three aspects,
That are awakening the
Concept of Consciousness.

(8) To SURRENDER TO THE UNKNOWN,

Knowing all probabilities and possibilities,
Lie within,
To know the value of the void,
In order to avoid not knowing.

(9) To BE IMPECCABLE,
Authentic and transparent with WORD,
Preparing for telepathy
Where there aptly will be
No deceit, nor denial of the deceit,
Won't that be neat?
Supporting our soul plan.

(10) To know the Universe
WOULD BE INCOMPLETE
Without each of you, a version.
Knowing being complete,
In self,
Is the source of the universe.

(11) To know WE TEACH WHAT WE NEED TO
LEARN,
This way we earn
Our way back to higher realms.
No one knows more than another,
Through your talents and gifts
We all further consciousness.

(12) To know the essential deed
Of creating COMMUNITIES OF
EQUALITY, HARMONY AND BALANCE,
Of giving and receiving,
These are the deeds of life.

2.
OATH OF THE LIGHT
WORKER AND WAY SHOWER

ADAPTED FROM THE ANGEL NEWS NETWORK

We are all light workers
To a greater or lesser extent,
It merely depends on your bent.

You have a mission and purpose
In this lifetime.
And if you so choose,
It is time to release the conceal and reveal
The various healing modalities
That are your true realities.

You may partake in those modalities,
Any way you choose,
There is no way to lose.

Some may work with individuals or groups
In certain techniques,

And that remains your mission and purpose,
Feeling quite complete.

Way showers are light workers
Who bring their gifts and talents
Out into the world in a larger way,
That is their pay.

A way shower shows the way
For others to move onto their path,
With no wrath,
To create communities,
Of equality, harmony and balance,
So there is no malice.

You may ask, at last:
Am I a lighter worker?
Am I a way shower?
How can I know?
Am I both, not to boast.

Some will know this total purpose now,
Others need time for it to reveal,
And that's no crime to let it be real.
Not to worry,
It will all be defined and refined
As you continue your journey,
For life is a continuous refinery.

OATH OF THE LIGHT WORKER AND WAY SHOWER

You are all on the path of the light worker,
Some may choose to remain where you are,
Others will go further far,
To support self,
And that of another.

If and when you are steady,
And ready to take the oath of both
The light worker and way shower,
The heavens will shower their Light on you,
No matter what you decide to do.

3.
THE FIVE
AGREEMENTS

ADAPTED FROM THE ANGEL NEWS NETWORK

From the Archangelic mission of Michael,
Through trace channel Jeff Fasano
Comes something called,
THE FIVE AGREEMENTS,
Blasting into the Earth plane's vibrato.

For those who so chose,
These Agreements are leads
To WORLD SERVICE, indeed.

While they number from one to five,
We shall start at the bottom,
To arrive at the top,
In order to know,
It's a bottom to top teaching
That allows us reaching the top,
Where we stop at World Service.

RECEIVING LOVE is Agreement number five,
It's all about being alive,
Allowing self to power our ability
To be who we are,
In order to receive love of self,
To take our love off the shelf,
In order to love others.

When we love self,
We no longer need to look
Outside our self, to love,
Nor hold others responsible
For the love we now choose
To give our self.

We're now not giving to get,
But balance giving and receiving,
Yet.

When we come from living,
Giving and receiving love,
Our talents and gifts
Come from a place
Of total grace.
We can then be
The person we chose to be,
And create the life we want,
Without any strife or knife.

Agreement number four is

About learning more to
DEVELOP A SENSE OF SELF,
Which is often lost in the strife of life.

This is an agreement
To move into the depth,
Of our heart, to begin the start
To know, love and value,
Self enough,
So we may develop the strength,
And courage to contribute
Our talents and gifts to the world,
In tribute to who we are,
And create the life,
We choose to live,
Forever more.

Agreement three is to focus on
WHAT IS IN YOUR LIFE?
Rather than what we perceive is not.
This can help us all a lot.
For many of us we would rather complain
About what is not, allowing things to stay the same.

Focusing on 'what is' creates gratitude,
Which manifests abundance,
And helps create new opportunities,
Creating multitudes.

Through our unique talents and gifts,
Along with qualities of self,
We critique creation.

Focusing on what is not
Is a trap with no way back,
Forcing us to look outside ourselves,
For what we think we lack.

The raw material we say we need to
Create the life we say we want
Has and always will be, within us,
A plenty.

Agreement two, (COMMIT TO A PERSONAL
PROCESS), is all about you,
And your willingness to examine,
The me in the we.

For the leading cultural curse in humanity now,
Is that most of our leaders and followers
Are bringing the unhealed me,
Into the we.

What a different world it would be
If the me were eliminated from the we.

Moving our consciousness
From me to we
Requires, of course, moving the me,
Out of the we.

The narcissistic me
Constantly seeks to be validated,
Gratified and celebrated,
At the expense of the we.

The me consciousness traps us,
And wraps us in lack and limitation.
The we consciousness, in contrast,
Provides a path of full lives,
Without any condemnation.

Living life fully requires.
Knowing who you are,
And having a strong sense of self,
So you may serve the world,
Through the whirl of your
Unique talents and gifts.

As we move into we consciousness
We really know and show
We can balance giving and receiving
All along the road in relationships,
That services the highest good of all,
With no failure.
In order to create and maintain and sustain

We consciousness it requires
A perpetual PERSONAL PROCESS,
Dealing with issues,
To help you release old behavior patterns,
That no longer matter,
And keep you locked in lack and limitation,
Of the limiting me.

When we agreed to take
Responsibility for the me
Through a continuous process of the me,
Then we can see, honor and value,
And love our self enough,
To love our divine soul plan,
And serve the world,
With no fanfare.

Now you can see all
Previous agreements have
Lead to thee,
To choose or not,
Agreement number one.
TO COMMIT TO WORLD SERVICE,
In the we.

To use your talents and gifts,
To eliminate all myths,
To raise the level of resonance,

And vibration of ourselves,
And communities,
In order to create,
A new world,
Of equality and harmony,
That the world has never seen...

4.
THE SIX
SACRED MESSAGES

ADAPTED FROM THE ANGEL NEWS NETWORK

We have Four Agreements there.
And Five Agreements here,
And now Six Sacred Messages near,
That's fifteen words of wisdom
Coming through.
Wow, something, someone,
Really wishes to bring teachings,
A new.

It all has to do with
Something called Ascension
Where our planet has chosen
Something new.

To raise her vibration so
She may become a star,
Requiring everything within and upon

Her body to not go far,
But to also choose to bask
In her divine light,
With all our might.

From Jeshua to Jeffrey,
The “Js” are the same,
A fifth dimensional divine message
From and through the two,
To share the Christ Consciousness energy,
So we can reduce our shame and blame.

Jeffrey is the trance channel messenger
That this came through,
And Jeshua is the frequency
Whose intention it is to make things,
A new.

The teacher and the lessons
Are here to support our
Connecting with our divinity,
Allowing the compassionate healing
Of our wounds and defenses,
So we have no need of being defensive,
Ever again.
These six ascended messages
Are given to us,
So we may look into reflection,
And within ourselves,
See a connection of where we are now.

These teachings are to support
Our ascension process,
Moving to a higher plane,
From a transition within,
That prevents us from being the same.

Many billions of us are here
To bring these teachings near,
To create a new world paradigm,
Of no not.

These six submissions
Compound and build upon themselves,
So we may create
A new self, and new world bordering,
On love.

These sacred sparkles
Glitter day and night
Releasing major issues,
For you to gain further insight.

We shall briefly mention each lesson
With a simple explanation,
And for further review,
We ask you to go to
The Angel News Network
For an in-depth study and renew.

(1) WHO ARE YOU?

Fully knowing who you are,
And why you are here,
Are quite essential in the ascension invention.

(2) THE POWER OF ALONENESS

It's all about being able to be alone
Without being lonely.
Through the loving relationship with self,
You can stand in your divine inner
Power in any hour of the day.
Examine the relationships you are having
In regard to your life's mission,
Moving to a place of power, now.

This lesson is about bringing,
You to yourself.

(3) RELEASING, DUALITY, ISOLATION AND
SEPARATION

Oh, how we love to hold on to these.
Let us now surrender them to a gentle breeze.

How much time is consumed
Opposing what is outside of us,
Rusting in fear.

Are we even using
Our spirituality to further
Separate and isolate.

Thus creating duality.

It is time to release these negatives
To allow positive to flourish,
In the me, moving the we,
Consciousness.

(4) THE POWERFULNESS OF YOU

The time has come to move into
The depth of your heart,
And start to fully,
See and be.
The powerfulness of me,
Can be in this place,
There is no race.

This is a serene power,
A deep knowingness of being
That is ready to see
You no longer have to prove
Who you are,
To be loved,
Just be.

(5) WHERE ARE YOU NOW?

From time to time you become
Sidetracked from your purpose.
These messages bring you back,
And take out the lack,
So you are on course

To where you know you
Need to be.

Are you now being who you are,
Releasing and policing what no longer resonates.
Are you moving through a
Personal process,
To arrest the old you,
And support your highest goal.

(6) ARE YOU READY?

Are you ready to leave the old behind?
And apply what's surfaced
In the first five messages,
To bury the old,
And birth a new you,
Even if that means stepping
Into the unknown, alone.

Are you ready to be who you are?
Are you ready to be a star?
Are you ready to take whatever
Step it takes to be you.
